	Live Release Rate (Calculation: Total Adoptions + Total Outgoing Transfers + Return to Owner/Habitat) / Adjusted Total Intake) Please see additional comments on this below.	79%	64%	70%

In a perfect world, the Ending Count is equal to the Beginning Count (A) plus Total Intake (F) minus all Outcomes (R+V). ----->

481 696 1177

If your reported Ending Count does not match these numbers, please go back through your data and be sure you didn't miss something (i.e., animals in foster, adoptions, transfers, etc.). If all animals have been accounted for and the reported Ending Count is different, please indicate in the comment section.

COMMENTS: AHS developed an Ethical No-Kill Philosophy, meaning we never euthanize a pet for space or length of time. Because we care for the most vulnerable animals in the Valley – the sick, injured and abused, who are often turned away by other shelters, sometimes we have to make the compassionate decision to euthanize an animal who is terminally ill, suffering from a severe medical condition or deemed too dangerous. In these instances, we are confident the typical pet owner would make the same decision. Staying true to our mission, we never turn away an animal that is suffering, sick or injured. For healthy pets we schedule an appointment. And, we do our best to help people keep their pets by providing critical resources. We are committed to ending animal suffering, homelessness and needless euthanasia.

AHS' Ethical No-Kill Philosophy and innovative medical programs, such as our Trauma Hospital, Parvo Puppy ICU, Mutternity Suites and Bottle Baby ICU, allow us to save animals that most shelters would refuse to intake. We have implemented a comprehensive mix of programs that meet the needs of the Valley's most vulnerable pets. By implementing this visionary Ethical No-Kill Philosophy, we've achieved what once seemed impossible and saved an additional 60,000 lives in the last four years.

I agree that in completing this form, we have used the Maddie's Fund definitions of "Healthy," "Treatable - Manageable," "Treatable - Rehabilitatable," and "Unhealthy & Untreatable" as set forth in the attached document titled, "Maddie's Fund® Categorizations/Definitions of Shelter Animals."
