

MASS

MEDICAL DISCLOSURE FOR MASS (REMOVED)

This pet had a mass that was removed while in our care. The origin of the mass is unknown as additional diagnostics, such as biopsy, were not performed. There are numerous causes of growths/masses. Many are benign (meaning non-cancerous), while others may be cancerous. It is recommended to monitor the pet for any re-growth in the area where the mass was removed and to see your regular veterinarian if that should occur. All follow-up care will need to be done at the owner's veterinarian and at the owner's expense.
